"I set out on this ground, which I suppose to be self-evident, that the earth belongs, in usufruct, to the liv-

ing. -THOMAS JEFFERSON. "To afford every American citizen of enterprise the opportunity of securing an independent freehold, it seems to me best to abandon the idea of raising a fu ture revenue out of the public lands."-Andrew

FOR CONGRESS. SAMUEL P. ALLISON, of Davidson.

WASHINGTON AFFAIRS.

The various Washington correspondents have sud-denly "caved in" so far as interesting gossip is con-cerned. Their letters which we received yesterday were devoid of their usual interest.

ATTORISEY CUSHING .- The Republic gives the fol-

The Attorney General has played hob with the calculations of those who hoped to get a nibble at the treasury through an entire change of the parties engaged on the construction of the extension of the Capitol. On Saturday he rendered his opinion on the points submitted to him in this connexion from the War Department, which was such as to induce the Secretary of War to remove the ban hanging over the further prosecution of the work: which was resumed this morning, to the great joy of Washington, by the three hundred hands whose daily wages had been thus stopped.

THE WESTERN MILITARY ASYLUM .- The selection of the Harrodsburg Springs, with two hundred seres attached, for the site of the proposed western military agylum, by pit Richeo to the Blue Licks give eminent dissatisfaction to the friends of the latter locality now in Washington. The wags are insisting, in fact, that the General's mortal aversion to these same Blue Licks settled the question in favor of Harrodsburg at \$100,000; though the Lic'd aforesaid, with four hundred acres attached, were offered for \$80,000. It seems to be estimated that the Harrodsburg site is worth in open market some \$50,000. If so, Uncle Sam has come off better in this trade than in the purchase of a site for the Memphis Navy Yard, having to pay only twice as much as the property is really worth. How ever, fifty thousand here or there, is a mere circumstance to the Government in the matter of getting the very best possible location for such an es-

AFFAIRS IN WASHINGTON CITY.

The Foreign Appointments-Secretary Ma: cy determined to dispose of them-Hords of applicants-Captain Scott in the field-the Capitol extension, etc.

SPECIAL CORRESPONDENCE OF THE NEW YORK HERALD. WASHINGTON, May 8, 9 P. M .- The foreign appointments are to be taken up seriously to-morrow it is understood, and as many of them disposed of as possible. Mr. Marcy de clared yesterday that unless they were soon made he would resign, as his time had been so occupied with applications for office that he had not time or opportunity of reading a single despatch, much less writing one, since he had entered the State Department, whilst newspaper literature and ial correspondence was to him a sealed book. This is not the entertainment he was invited to, and he won't stand it any longer. There is much truth in the complaint The selection of persons to fill the offices, except in few instances, is a matter of little importance comparatively, and as the New York offices are nearly all filled the Premier desires to turn to his real vocation as Secretary of State.

Rumors of all kinds are plenty as to who will get mis sions, &c. All that is yet fixed, however, is the fact that Dix, Seymour, and Gadsden have been selected. Others may have been, but the fact has not yet leaked out in any authentic shape. Meantime, many of the expectants are on the ground, ready to hear their fate.

We notice among the crowd the famous Capt Scott of Richmond, who killed off last year so many Presidential aspirants. The consulate at Rio might satisfy him, and surely such prowess as his is deserving of pecuniary reward.-Then the question of You g America is to be solved, and it will be seen whether the President can spare for foreign service the manes of the Democratic Review. Col. Polk is here, too, preparing to meet his fate, and find that Trousdale has secured the prize. Major Donelson, formerly of the Union, is also in town, but not seeking preferment, though doubtless it would please him to see his talented and popular son-in-law, Col. Wilcox, cared for. Mr. David L. Seymour, of New York, the able chairman of the Committee on Commerce of the last House, would doubtless accept the appointment, if the Seymours had not already got one mission. There is also a host of small fry here, all recommended as the smartest men in the Union, and each one of whom elected Gen. Pierce. With all this bountiful supply it may be that none of them will draw a prize-more wonderful thir gs have lappened. To morrow will be a field day.

The contract for the extension of the Capitol and the Patent office, held by Provost, Winter & Co, which was submitted to the Attorney General to see if it could be broken, has been decided to be valid and in due form, and those gentlemen have been notified to proceed with the work .-The matter created a good deal of excitement. x. y. z.

THE NEWS FROM WASHINGTON.

Secretary Marcy overrun by Office seekers-The survey of Railroad routes to the Pacific-Inspector General of the Army-Peaceable Measures for the removal of the Seminoles from Florida, etc.

SPECIAL CORRESPONDENCE OF THE NEW YORK HERALD, WASHINGTON, May 10 -- 9 P M,-The State Department hall was crowded to day with an anxious concourse, desirous of seeing Secretary Marcy and imparting a few last words previous to the final selection of ministers, charges, and consuls, which they believe is to take place to-morrow. The Governor did not appear to care a great deal for the pleasure of meeting his fellow-citizens, as the door of his room was only opened at long intervals to admit a favored few. Towards three o'clock the doors were thrown open, and the crowd were permitted to have a private interview with the Secretary all together, which must have been highly satisfactory, as every one heard his neighbor's busi-

There was no cabinet meeting to-day. Of the four parties to be detailed under the direction the War Department, to make surveys and explorations of the various routes to the Pacific, the organization of the party under Mr. Stevens, Governor of the new territory of Washington, has already been published. The instructions were to-day given for the second party, under the command of Lieut, Robert S. Williamson. It is to be composed as follows: - Lieut, R. S. William son and Lieut, J. G. Parke, of the corps of Topographical Engineers, and Lieut. G. B. Anderson of the Infantry: also, one mineralogist and geologist, one philologist and naturalist, two civil engineers, and one draughtsman. The selection of the individuals to fill these positions has not yet been made. This party will survey and explore the country between the Pacific and the mouth of the Gila. through Walker's Pass, examining the country lying west of the Lower Colorado. This will be the most southern survey, as Mr. Stevens' will be the most northern. The parties under Capt. Gunnison, of the Topographical Engineers, and under Lieut. Whipple, assisted by Lieut. Ives, of the same corps, have not yet been organized, nor has it been determined what routes they are to survey and explore. They will probably receive their instructions during the week.

It is said that Brevet Colonel Mansfield, of the Engineer corps, has been appointed Inspector General of the Army. The government has determined not to attempt to use force in the subjection of the Florida Indians, but to proceed with the surveys of the lands there, believing that all that is necessary is to convince the Indians that the process of settlement is to go on quietly, in order to induce them to give up their hostile demonstrations and accept of terms to peaceably join their friends west of Arkansas. Samuel Dutton has been appointed Postmaster at Battleboro,' Vermont.

Mr. Constable's declination of the Solicitorship of the Treasury was received yesterday. It is strange that Mr. Constable should have permitted his friends to press his claim for an office just for the vanity of declining it.

FIRE AT HARTFORD. HARTPORD, May 11, 1858.—The Roman Catholic Church was destroyed by fire about one o'clock this morning. The adjoining dwelling of the priest was much injured. Since the erection of the Cathedral this church has been used for occasional services, and the basement as a schoolroom,grance on the church \$8,000, on the dwelling \$2,000 which is more than covers the loss.

BO ASSESSMENT WATER

NASHVILLE, TENN. JOHN L. MARLING, EDITOR.

TUESDAY MORNING, MAY 17, 1853.

NEW ARRANGEMENT. We are gratified this morning to be able to anounce the fact that the American and Union newspapers have been united, and that henceforth they will be issued in one form under the name of "The Nashville Union and American." In this arrangement the editorial department of the new paper will be under the control of Messrs, MARLING and EASTMAN, and the business of the office will be managed by Messrs. Torserr and Church. The style of the new firm will be John L. MARLING

It is hoped and believed that this new arrangement will meet with the entire approbation of the democratic party of the State. It is desirable for the harmony and welfare of the party that there should be but one central organ, and it has long been the ardent desire of those who have the interests of the party at heart that a union between the two papers of this city should be effected upon satisfactory terms. This union has now been consummated, and it will be the constant aim of the consolidated journal to preserve the democratic party of Tennessee a unit for all the great purposes of its

The new arrangement will date from to-morrow the Isticof May, when the "Nashville Union and American' will be issued upon an enlarged sheet. To the advertising friends of the two papers, this consolidation will be highly advantageous. Both journals have hitherto enjoyed a large and steadily increasing circulation. This union of the two subscription lists gives to the consolidated journal a circulation doubtless superior to that of any journal in the Southern country. The Nashville Ilmion has been established nearly twenty years, during which time it has avained a circulation not surpassed, if equaled, by that of any paper in Tennessee or the edicining States. The Nashville American has been established since 1849, and in that time has attained a wide and substantial circulation. The consolidation of the two papers thus furnishes the best possible guarranty that the new arrangement will be of inestimable advantage to the advertising friends of

The new paper will be sent to all the subscribers of the Union, and all advertising and subscription contracts existing will be completed by the new firm. Those who are indebted to the Union for advertising and subscriptions to the 15th of May. 1853, will settle with Church & Mariano, it being a part of the new arrangement that each office shall collect all its dues and pay all its liabilities. All dues to the office from the 15th of May will accrue to the new firm. The new firm will open an entire new set of books, dating each subscription from the 15th of May, 1853.

The subscribers of the Union will pardon us for urging upon them the absolute necessity of settling up their dues. We must close up our old business. All those indebted to us should at once remit the money by mail, at our risk. All overpayments will be properly credited on the new books. Those who remit by mail will be charged the advance rate, \$2 50 per annum for the Weekly, and \$5 00 per annum for the Tri-Weekly. All accounts not settled in this way by the latter part of June will be made out and placed in the hands of agents for collection, charging, in all cases, \$3 per annum for the Weekly. We shall have to pay these agents 20 per cent. for collecting, and if our subscribers, by neglecting to forward their dues by mail, make it ne cessary for us to employ agents, they must, therefore, pay the commission. We give our friends due notice that this rule will be inflexibly adhered to.

COL JOHNSON-ACCEPTANCE OF THE NOMINA-TION.

A private letter was received in this city yesterday, from Con. Johnson, in which he accepts the democratic nomination for Governor, and expresses his readiness to enter actively upon the duties of the canvass. The letter from the committee appointed to notify Col. J. had not reached him at the date of the letter alluded to. We shall doubtless be enabled, in a short time, to publish his formal

In the meantime, our friends may rest satisfied that he is ready for the canvass, and will shortly enter into it with all the energy and ability of his character. Let the democracy of the State now prepare for the conflict. Let every county be organized, and prompt steps taken to disseminate the truth in every part of the State. When this is done, the triumph of democracy follows as a legitimate result.

MELANCHOLY AFFAIR.-An affray took place at Port Gibson on Monday week, resuliting in the death of WM. K. MURRAY, a merchant of that place. He attacked with a sword cane, Dr. CHANDLER. formerly of Natchez, who, in turn, shot his assailant twice, once through the body and once through the head. The difficulty between them is stated to have been of a private nature.

We received by Sunday night's mails the Paris (Tenn.) Republic, dated Fedruary 22, 1851! The night before we received copies of the Franklin Home Press, dated the 7th and 14th April. Great country this, sometimes.

BALTIMORE, May 12.-New Orleans papers of Saturday are received. A horrible affair occurred at Babington, S. C., Saturday last. John D. Simms had a difficulty with an overseer, when the wife of the latter presented a pistol and threatened to shoot; whereupon Simms shot her and then killed her

Hon. Solon Borland, Envoy Extraordinary and Minister Plenipotentiary to the Central American States, arrived in this city yesterday from Louisville en route for his home in Arkansas. He will leave there very soon for Central America .- Mem-

phis Appeal. The nomination of the Hon. ANDREW JOHNSON as the Democratic candidate for Governor, has been received with great enthusiasm by the Democratic press throughout the State, and he is the man to warm up the enthusiasm of the Democratic masses -he is emphatically the People's man,-Chatanooga Vindicator.

APPOINTMENTS. - We find this in the last number of the New York Tribune,

WASHINGTON, May 8, 1853. Schroeder, Charge d'Affairs at Stockholm, wil probably retain his office. He is son-in-law of Col Seaton, of the Intelligencer. Thos. M. Rodney, of Delaware, consul at Matanzas, will also continue there, such being the almost dying request of Vice-

President King
The appointment of Meriwether is a wet blanket upon the hopes of Kentucky aspirants to foreign positions. Col. Helm is probably certain of a consulship, notwithstanding

It is now certain that Gov. Trousdale, of Tennessee, will get the Brazilian mission.

DELAIN AND LOVE .- The local of the Albany Transcript states that no man under thirty-five can sit beside nine yards of delsin without becoming afflicted with a palpitation of the heart.

PARTY SPIRE

Thus far, events have justified us in saying, soon after the election, that the federal spirit would continue to animate one of the great parties of the country. For the sake of disguise, it may abandon its present and assume another name, as it has frequently done before; but it is antagonistic to progress and equality, and must always under some form or other, manifest its hostility to democratic ideas. Since their late overwhelming defeat the whigs have avoided a national struggle, and manifested but little desire to reform a national organization. In some quarters prominent whigh journal zation. In some quarters prominent whig jour-nals have assumed a tone of moderation, and proposed a truce under the pretence that they deemed a lasting peace attainable. But while this course is pursued with regard to federal affairs, the whig party in the separate States is actively engaged in forming State organizations based on local ideas and interests to be united hereafter when they are duly disciplined to act in concert. The whigs of Virginia have opened the canvass by throwing out a series of new issues, local in their character, with the hope of collecting all the elements of dissatisfac-tion. The late whig convention, called to nominate a gubernatorial candidate in Tennessee, indicated in its proceeding more attachment to the old issues, if we may judge from the manner in which the speech of Hon. John Bell was received—an act which is accounted for by the presidential vote of that State. That gentleman repudiated the idea of abandoning the old principles of the whig party, and he saw no reason for abandoning its name though that was a seconday matter-there being, in his estimation, a prime, overruling necessity for an organization to maintain the spirit of the whig deas. Thus will it be throughout the Union. The opposition will attempt to assume the hue of each locality, and appeal to the passions of every section. In those States in which the whig organization has not been utterly destroyed, it will be adhered to with such modifications as the peculiar views prevalent in them may suggest. In other States the opposition will organize on other ideas-promising a high tariff where protection is popular-a low tariff in free-trade communities-vast expenditures for internal improvements by means of river and harbor bills-or land distributions-or strict construction and economy, as the occasion may require. When these topagrel elements have acted in concert sufficiently long, a general name and more uniform rules of discipline will be adopted, in order to prepare the allied forces for a national struggie. This was the course which federalism pursued after its overthrow by General Jackson, and it is the natural course for it to pursue, no matter what name it assumes. As long as there are men who distrust the people, who fear equality, and wish to be made rich by legislative enactments, so long will there be a feeling of bitter and relentless hostility to democratic principles, which will scruple at no artifice to make itself felt. This matter should be understood, for the time has not come for the lion and the lamb to lie down together.

ONE WEEK LATER FROM CALIFORNIA.

The Daniel Webster at New Orleans-Total Loss of the Vanderbilt steamer S. S. Lewis-Explosion of the Steamer Jenny Lind-Fifty or Sixty Persons Scolled and Twenty

NEW ORLEANS, May 9, 1853 .- The steamship Daniel Webster has arrived at this port from San

She brings San Francisco dates of the 16th of El Dorado at New York, having connected with the Pacific steamship Brother Jonathan, which left San Francisco on the above date.

The news is of very little importance, with the exception of the loss of the Vanderbilt steamship S. S. Lewis, which ran ashore in going from San Juan to San Francisco, and was unable to be got off. The S S. Lewis went ashore north of Bolinas

Bay at three o'clock in the morning, and it being found impossible to get her off, all the passengers, four hundred in number, were safely landed, together with nearly all the baggage; but the vessel. a considerable quantity of specie, and the ship's stores, would prove a total loss. The loss was estimated at \$200,000, on which it is thought there is no insurance. The steamer Jenny Lind exploded near San Fran-

cisco. Fifty or sixty persons were terribly scalded, of whom twenty were dead, including seven chil-dren and one whole family—Noah Ripley, his wife and three children. At the time of the explosion the Jenny Lind was

going from Alviso to San Francisco, having 130 passengers on board, mostly from San Jose. The survivors and the remains of the unfortunate victims were taken to San Francisco by the steamer The markets generally were very little changed

since the departure of the Columbus on the 9th. The mining intelligence of a favorable character. The Senate had rejected the bill for the extension of the city front of San Francisco, previously passed by the House.

The act extending the provisions of the fugitive slave law for another year, also an art for the incorporation of railroad companies, had passed the

THE MARKETS.—The San Francisco markets were quiet, and prices show a decline on some articles .-Flour was selling at prices ranging from \$9 to \$11 per bbl. Pork was tending downward, the quotations for mess being \$30a\$30 50; hams 20ca24c per Butter, 35ca37c. Adamantine candles, 38.

THE MICHIGAN RAILROAD CASE.

Since the late terrible collision near Chicago, the following regulation has been adopted for the government of conductors and engineers on the Michigan Southern and Northern Indiana Rrailroad:

OFFICE OF THE M. S. & N. L. R. R.) Ситсадо, Аргіl 28, 1853.

Every engine, with or without a train, must be brought to a FULL STOP at every railroad crossing on the line; and the conductor of the train, or the fireman employed on the engine, must go forward to the crossing, and give notice that the way is clear before the train or engine is allowed to pass over it.

Jos. H. Moore, Sup't

This is an excellect regulation, and if adpoted and enforced on the railways generally of the United States, would entirely do away with the class of accidents to which it refers. But collisions of that particular character are very few, and this regulation would do but little towards preventing the awful scenes that are now so common on the railroads of this country.

The States generally, or the Congress for them. must pass stringent laws upon the subject of railway movements, and enact severe penalties for the violation of the rules prescribed in these laws, or there will be no security for life while travelling. It will not answer to trust this matter to the jus-

tice and mercy of railroad companies. Nor will fines suffice. Such a reckless trifling with life must be declared a crime of the highest kind, and be pun-

Then, but not till then, will accidents like those which have so recently occurred on the Michigan, New York and New Haven, and Erie Railroads, cease.-Louisville Courier.

SHOCKINGLY ROMANTIC-A GIRL SHOT BY HER LOVER .- A young German, named Fred. W. Mitchell, had been paying his addresses to Miss Magda-lene Thompson, and the father of the young lady had forbidden him from visiting her. He was seen, bn several occasions, to watch for her near the premises, where the girl was employed, and upon meeting her, exclaimed—"It is well I have found you-now you die, and at the same time fired a pistol at her, the charge missed her, and she ran up stairs, but on endeavoring to escape his fury, she received a pistol ball in the left thigh. The wound is of a serious nature, and may prove fatal. Immediately after shooting the unfortunate girl, Mitchell went to the 11th Ward station house, and gave himself up .- N. Y. Mirrol

Acquirren.—Araminta, the negro woman, who poisoned the family of Thomas J. Pickens, on the 4th of July last, had her trial this Court and was acquitted. We were not at all surprised at the verdict of the Jury, knowing that it would be a very difficult matter to hang a negro worth some seven or eight hundred dollars, for the trifling offence of poisoning four or five white persons.—Columbia Herald.

Nonrolk, May 10, 1858 .- A great tornado has passed over the lower part of Princess Anne county, Virginia. A number of houses were swept off, and everything was prostraed. Four lives were lost and many persons wounded;

Mr. Euron:—It is pretty generally understood that the lorps of Engineers attached to the Louisville and Nashville lailroad, have completed the location of the road to a poin within three or four miles of Nashville; but that they have not yet determined at what point they will cross the river.

Before this important decision is definitely and finally made, it would be well for those who own property about the Square and the northern part of the corporation to look about them a little and open their eyes to their own interest. They must "sleep no mere," if they wish to participate in the prospec tive advantages of the road. I will endeavor to explain, as briefly as possible, the suggesting I wish to make. Some years ago an act was passed chartering a company

for the purpose of improving Lick Branch. Recently subject has been revived, and the Board of Mayor and Aldermen appointed a committee (A. Hume, Esq., ch'n) to procure a survey of the grounds, and a general report as to the feasibility and probable cost of the improvement. The survey has been made and the Map and Report will be presented to the Board probably at their next regular meeting. The general plan is as follows: To open a straight cana along the line of the branch, which shall be so constructed as to afford wharves or landings, or dock-yards; the sides of the canal, both north and south being levee'd up to high water mark; the canal to extend from the river to the western limit of the corporation, and the levees to be continued across the flats at that point. The results of this would be -First. That Lick Branch, instead of being what it has long been, a nuisance and an eye-sore-a perfect sink of filth and corruption, moral and physical-would become a useful channel for the conveyance of coal barges, wood rafts, &c. into the very heart of the city. Secondly, The levees would afford convenient wharves and landings for goods; and, their summits being above high water mark, they would protect all the adjacent property from inundation either by back water or otherwise. Thirdly. The levee on the north side would afford an admirable road-bad for the Louisville and Nash-VILLE RAILROAD, which could thus easily, and by a gentle curve around the base of the Acropolis on which stands our noble Capitol, form a connection with the Nashville and Chattanooga Railroad at its present terminus on Lawrence

I will not now trespass upon your space by going into niqute details. All that I wish at this time is to bring this natter to the attention of those who are most interested, parscularly the owners of property in the northern part of the city. They have slept too long; boy takes and than never, therefore let them now "awake, wise, on be selecter fallow." Nashville, May 16, 1852

Hox. Geo. W. Jones.-This gentleman was in our town in the early part of the week, and ad-dressed the people at the Court-House, on last Mon-

As none of the Counties composing this Congressional District have responded to the call made by the meeting of the Democracy of Maury, for a Convention for the purpose of nominating a candidate for Congress, and as Mr. Jones is the only man spoken of for that position, and has declared himself as a candidate, we this week place his name in our ticket at the head of our columns. It is unnecessary for us to go into a lengthy detail of Mr. Jones' political course, as he is well and favorably known by a very large majority of our citizens, and will make us a good and faithful Representative .-Columbia Herald.

A fire broke out in Cincinnati on Thursday morning in the lumber yard of Fairchild, Asher & Co., near the Dayton Railway depot, which destroved lumber to the value of \$14,000. The frame dwelling was also destroyed. The fire was the act of an incendiary.

We are authorized to announce Thomas Sumner as a candidate for Trustee of Davidson County.

COMMERCIAL.

SPECIAL NOTICES.

Liver Complaint. This dangerous and often fatal disare had long baffed the skill of the most eminent physisize lad long bathed the disil of the most eminent physi-sians, when the discovery of Dr. M'Lane's Liver Pills solved the difficulty, and presented to the world the Great Specific for that complicated malady which has since at-ained such widely spread celebrity for its certainty of cure. This successful remedy was the result of many years' study, in which the symptoms were narrowly observed, and thus described by the Doctor himself:—

"Symptox: of a Discused Liver.—Pain in the right side, and sometimes in the left, under the edge of the ribs—the tient being rarely able to lie on the left; pain sometimes under the shoulder-blade, frequently extending to the top of the shoulder-often mistaken for rheumatism in the arm; ickness of stomach, and loss of appetite; bowels mostly costive, but sometimes alternate with lax; dull, heavy sensation in the back part of the head; loss of memory, with uneasiness of having neglected something; sometimes dry cough; weariness and debility; nervous irritability; feet cold or burning, and prickly sensation of skin; low spirits, lassitude, with disinclination to exercise, although satisfied it would be beneficial. In fact, patient distrusts every remedy." Have you any, or all of these symptoms? If so, you will

find a certain remedy in Dr. M'Lane's Pills, which may be For sale at all the principal Drug Stores in Nashville

It is Universally Admited, That Dr. C. Williad PULMONIC BALSAN OF WILD CHERRY AND WOOD MAPTHA, IS reeding all other medicines wherever it is introduced. and for the very best of reasons, because it is FAR SUPERIOR to them an in curing all diseases of the BREAST and LUNGS. Try it and you will be fully convinced

may8-lm. The drooping girl new vigor shall sustain-

Bloom on the lip and circle in the vein. Female complaints always yield to the mild action of these Pills. A child 6 months old may take DR SMITH'S Pills with safety-they neither sicken nor distress the most delicate. Those accustomed to take them say they sleep soundly all night, the head becomes clear, the countenance changes to a flush of youth and beauty.

No NEED of dosing so much-Try one box of these gez uine) sugar Coated Pills; live regularly, and you will glad you have taken this sensible advice. Sold every where in the United States.

Another Scientific Wonder!--Important Dyspeptics .- Dr. J. S. Houghton's Pepsin, the True estive Fluid or Gastrie Juice, prepared from Rennet, or Fourth Stomach of the Ox, after directions of Baron Leiber. the great Physiological Chemist, by J. S. Houghton, M. D. Philadelphia. This is only a wonderful remedy for Indiges tion, Dyspepsia, undice, Liver Complaint, Constirpation and Debility, curing after nature's own method, by nature's own agent, the Gastrie Juice. Pamphlets, containing scientific evidences of its value, farnished by agents gratis. See notice mong the medical advertisement

An Ounce of Fact is worth a pound of theory and the swarms of conclusive facts that cluster around that incomparable preparation, Hoofland's German Bitters, prepared by Dr. C. M. Jackson, Philadelphia, establishing its value as a tonic and restorative, are such as would prevent incredulita itself from questioning its efficacy. In all cases of disease of the stomach, whether acute or chronic it may be recommended for its soothing, cordial and renovating influence. - Dyspepsia, heartburn, loss of appetite, nausea, nervoue tremora relaxation, debility, &c., are relieved, by the Bitters in a very short space of time; and perseverance in their use never

IMPORTANT TO SLAVEHOLDERS.

DR, MORRIS having permanently located in Nashville, respectfully tenders his services to the suffering public .-Scrofula, Ulcers, Cancers, Tetter and Ring Worms, treated in a scientific manner. Medicines gentle, but active and effective, their use being attended with no unpleasant consequences whatever, requiring no restrictions or hindrance from ordinary business pursuits. He wishes it understood that he has settled in your midst, not for the purpose of hum bugging or imposing upon you, but to relieve those who may be suffering with diseases which are destroying by piecemeal many of your deserving and useful citizens. Gravel Strictures, and all diseases of the genital organs are thoroughly understood and successfully treated by Dr. M.

To those who may doubt the Doctor's skill in the healing art he would respectfully propose that they bring forward a case of any of the above named diseases, (the worst that they can conveniently find,) and pledge themselves to see that directions are strictly followed for a reasonable time; Dr. M, will then give his obligations to furnish such medicines as may be necessary, and in such quantities from time to time as the case may require, and, until a cure shall be effected, positively no fee will be received, and if no relief be obtained from the use of the medicines, no charge whatever

will be made for advice or medicines. The attention of masters and owners of servants is particularly invited to the above. Those having servants afflicted with Scrofula, Gravel, stiffness or soreness of the limbs and joints, would find it to their advantage to consult Dr. M. His treatment is mild, and in no case will it be necessary to lose time while using medicines. Charges reasonable.

Respectfully, ANTI HUMBUG. All communications from persons at a distance, post paid, inclosing three dollars, will be promptly attended to. DR. W. H. MORRIS.
